

STATEMENT OF AVERAGE GROSS COMPENSATION PAID BY HERBALIFE TO UNITED STATES DISTRIBUTORS IN 2012

People become Herbalife Distributors for a number of reasons. The majority (73%)⁽¹⁾ primarily join us to receive a wholesale price on products they and their families enjoy. Some wish to earn part-time money, wanting to give direct sales a try and are encouraged by Herbalife's low start-up costs (at their option, a mini-International Business Pack (IBP) at \$59 or full IBP at \$109) and money-back guarantee⁽²⁾. Others are drawn to Herbalife because they can be their own boss and can earn rewards based on their own skills and hard work.

Whatever the motivation, an Herbalife Distributorship is something like a gym membership: results vary with the time, energy and dedication you put into it. Anyone considering an active Distributorship needs to understand the realities of direct selling. It is hard work. There is no shortcut to riches, no guarantee of success. However, for those who devote the time and energy to develop a stable base of customers and then mentor and train others to do the same, the opportunity for personal growth and an attractive part- or full-time income exists. Moreover, unlike other businesses, there are minimal start-up costs in beginning your Herbalife Distributorship. There is no need for a Distributor to spend significant amounts of money on sales aids or other materials. In fact, Herbalife's corporate policy discourages the use of such sales aids, especially in the first few months of a Distributorship.

The majority of Herbalife's independent Distributors (71%) have not sponsored another Distributor and are therefore "single-level" Distributors. Single-level Distributors benefit from buying Herbalife products at a preferred price for their consumption and that of their families, and for many this is the only benefit they seek. Some may also be retailing products for a profit and this profit is not included in any of the compensation figures below.

Some Distributors (29%) have decided to sponsor others to become Herbalife Distributors. In that way, they may seek to build and maintain their own downline sales organizations. They are not paid anything for sponsoring new Distributors. They are paid solely based on product sales to their downline Distributors for their own consumption or for retail to others. This multi-level compensation opportunity is detailed in Herbalife's Sales & Marketing Plan, which is available to all Distributors on line at www.myherbalife.com.

For potential Distributors to make an informed decision, we offer the following chart to show the different ranges of average gross compensation that Herbalife pays to its Distributors. The figures below do not include any retail / wholesale profit that a Distributor makes from selling Herbalife's products to others nor do these figures include expenses incurred by a Distributor in the operation or promotion of his or her business. Such business expenses can vary widely. They might include advertising or promotional expenses, product samples, training, rent, travel, telephone and internet costs, and miscellaneous expenses. The compensation received by the Distributors in this chart is not necessarily representative of the gross compensation, if any, that any particular Distributor will receive. These figures should not be considered as guarantees or projections of your actual gross compensation or profits. Success with Herbalife results only from successful product sales efforts, which require hard work, diligence and leadership. Your success will depend upon how effectively you exercise these qualities.

The compensation chart below indicates that 434,125 Distributors (88%) received no payments from Herbalife during 2012. However, this chart does not include amounts earned by Distributors on their sales of Herbalife products to others.

Additionally, this chart does not include the benefit to Distributors buying Herbalife products at a preferred price for their consumption and that of their families. Based on the company’s survey, 73%⁽¹⁾ of individuals became Distributors primarily for this benefit.
